

Particular Logo

User manual

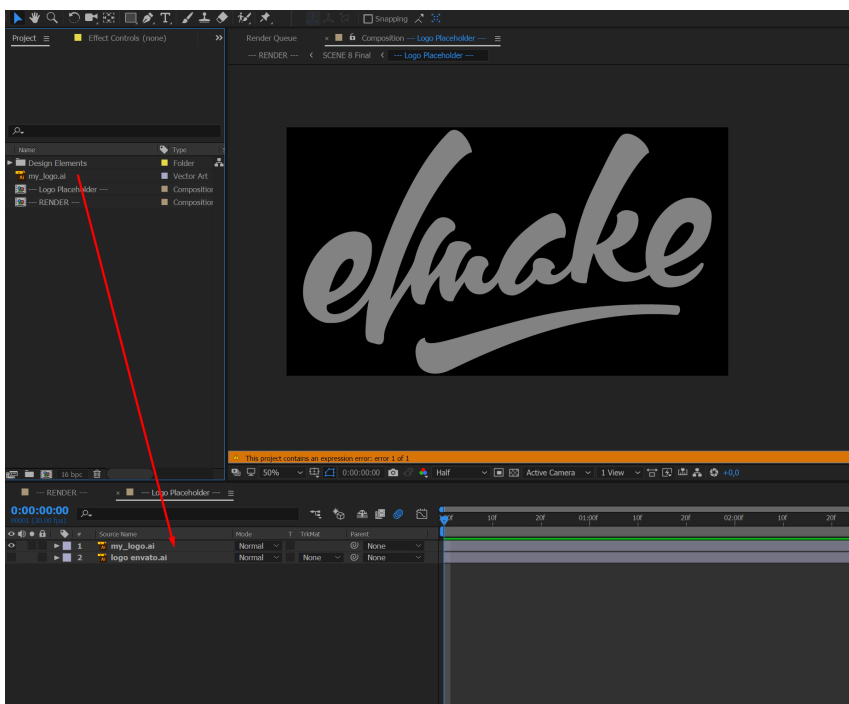

Hello, dear colleagues!

Thanks for buying this template. Here is a step-by-step manual to use this project:

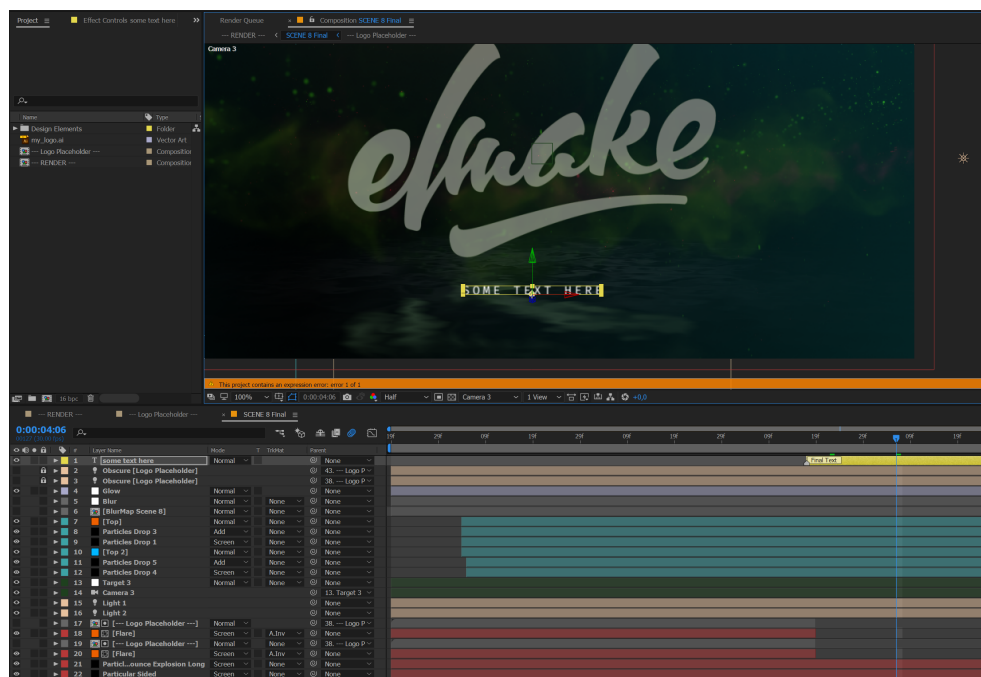

1. Open **"particular-logo.aep"** project file and import your logo inside "Project" window:

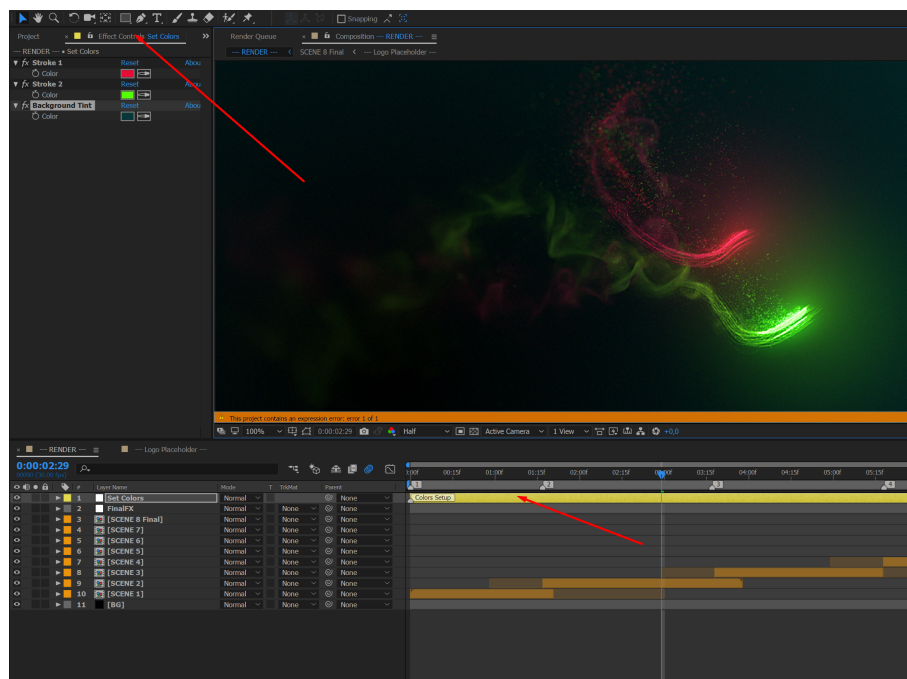

2. Drop your logo into **"--- Logo Placeholder ---"** comp. Or type any text:

3. Edit final text inside final scene “**SCENE 8 FINAL**” project:

4. Set colors if needed. Select 1st layer in “--- **RENDER** ---” comp and edit colors in effect tab:

5. Render the final result, composition “--- **RENDER** ---”. (Press Ctrl+M or CMD+M in --- **RENDER** --- comp active).

Thats all!

Hope you like it and again - thanks for buying. If you have any questions - please, contact me via my personal page.
